10-WEEK BC & WAREHOUSE MANAGEMENT SYSTEM IMPLEMENTATION

ACUMEN CONSULTING
Business Systems Professionals

Get Microsoft Dynamics 365 Business Central implemented fast with:

- **Free half day assessment** of where you are at as a business today and where you envision to take it
- **Fixed Cost** offering
- **Low Risk** implementation
- **Out of the box** functionality
- **Step-by-Step** assistance
- **Great Return on Investment**

To really **gain value** out of your ERP implementation, you need to **get the foundations right.** We offer **expert consulting services** to help you configure the system for YOUR business needs. You will get the best of both worlds – **a proven implementation experience** from **highly skilled consultants** paired with technology and templates that enable us to **get you going quickly and cost-effectively.**

Let's face it! You don't look at Dynamics 365 Business Central to just run your accounts. You are here because you have outgrown your spreadsheets and simpler accounting package, or it has just come to the end of its life. **You are in need of a system that supports all aspects of your business!**

We will supply you with **templates and training** and also the **assistance** required to get the data right and to set up the system and **import historical data**. We believe this is critical to ensure you are **set up for success.**
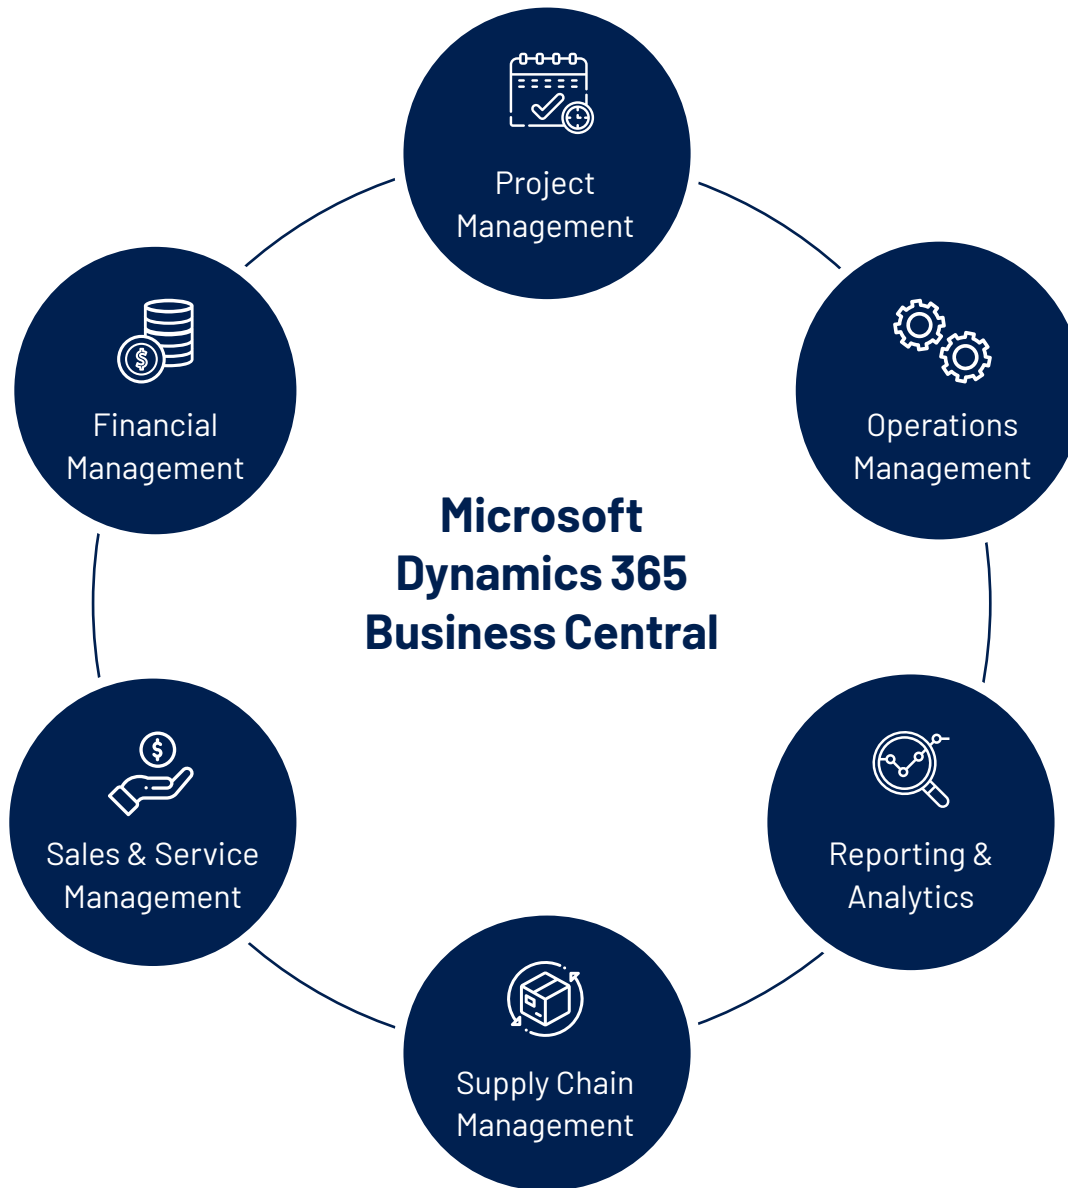

Get Microsoft Dynamics 365 Business Central and a Warehouse Management System implemented fast!

The QMS module is not a separate software solution. It operates right within Microsoft Dynamics making QMS a solution within your ERP, not a bolt-on.

We assist you through the implementation process with a focus to get you up and running quickly and enable your team to gain knowledge within a few weeks.

Maximum hands-on from you allows for a smooth go-live as well as cost-effective project.
